### SUMMARY

Senior frontend developer with experience across diverse tech stacks, products, and work environments. I approach technology pragmatically, focusing on matching the right tools to specific requirements rather than chasing trends. My philosophy centers on putting business needs first, recognizing that the true value of software development lies in solving real-world problems.

### SKILLS

HTML | CSS | javascript | git | vue | nuxt | typescript | figma | docker | jest | electron | nodejs | scss | tailwind | vuetify | vite | web rtc

### EXPERIENCE

**Mero**, *Conference management company, part-time, remote*

#### Frontend Development Consultant

Sep 2024 – current • 2 mos

- Provided technical leadership and mentorship to a 3-person frontend development team
- Offered strategic guidance on technology stack selection, architecture decisions, and complex debugging challenges
- Led a performance optimization initiative, reducing bundle size by 67%, improving application Web Vitals scores
- Handled onboarding and training of new employers

**NDA project**, *fintech corporation, remote*

#### Senior Frontend Developer

Dec 2021 – Aug 2024 • 2 yrs 9 mos

- Various refactoring of legacy code.
- Implemented an architectural practice of separating the application into layers, improving the project structure.
- Implemented unit testing (jest, testing-library). Integrated TypeScript into the project.
- Developed a component library as part of a redesign
- Handled onboarding and training of new employers

**S256**, *Outsource web studio, Kostroma, Russia*

#### Frontend Lead

Jan 2021 – Dec 2021 • 1 yr

- Participated in the hiring process for new team members. Trained junior developers. Devised a strategy to standardize the architecture across various web applications of the studio, then executed this plan using the department's resources.
- Made decisions regarding the choice of technology stack.
- Introduced code review practice.

#### Frontend Developer

Sep 2019 – Jan 2021 • 1 yr 5 mos

- Developed and maintained responsive web applications using HTML5, CSS3, and JavaScript (ES6+), VUE
- Implementing efficient state management solutions (pinia, atomic-stores)
- Collaborated closely with UX designers via Figma to accurately translate mockups into functional interfaces.
- Integrated RESTful APIs (JSON API, OPEN API).
- Worked with SSR for SEO optimizations and faster content loading
- Optimized web performance using techniques like lazy loading and code splitting, improving our Lighthouse scores.

#### Content Manager

Dec 2018 – Sep 2019 • 10 mos

- Email template development and content management.
- Wrote Python scripts (using Selenium) to automate the process of uploading information to product cards.
- Developed SQL queries to analyze the success of email campaigns.

**Academy**, *After-school education, Kostroma, Russia*

#### Teacher

Sep 2018 – May 2019 • 9 mos

- Taught middle and high school students mathematics and computer science

### EDUCATION

**Kostroma State University named after N.A. Nekrasov (KSU)** — *Bachelor's degree, Physics*

Sep 2014 – July 2018, Kostroma, Russia
